MINERAL RESOURCES STATISTICS

There are currently 411 placer leases to prospect, in good standing, equivalent to an area of 7,340 placer claims or 699 linear miles. Total placer ground, including placer leases, approximates 22,566 placer claims. In comparison, it is reported that there were some 18,000 placer claims in good standing at the height of the 1899 gold rush.

Placer gold royalty has been paid on 52,790.65 troy oz. for the period 1 July 1984 to end of September 1984. This is a decrease of 9,608.31 troy oz. for the same period last year.

The number of hardrock (quartz) mining dispositions being held in good standing is 46,458 claims. This number is down from the 47,841 claims which were in good standing at the end of September 1983. (Reasons likely are due to low metal prices and tightening up of budgets during this period of restraint in the economy.)

Major portion of placer revenue was also for filing of assessment work.

ACTIVITES CULMINANTES

DISTRICT MINIER DE WHITEHORSE

NOVEMBRE, 1984

QUARTZ: La majorité des 121 nouvelles concessions ont été jalonnées et enregistrées encore une fois dans la région de la rivière Wheaton SNRC 105-D-3/6.

Approximativement 70% des revenus reçus ce mois-ci ont été déposés contre des travaux d'évaluation sur des concessions existantes.

OR: L'activité d'or diminue avec seulement 15 nouvelles concessions enregistrées principalement dans les régions du ruisseau Livingstone - 105-E-8 et le ruisseau Nansen - 115-I-3.

La majeure partie des revenus d'or ont aussi été pour des travaux d'évaluation.
